

TEAM CONSULTANTS AND ENGINEERS

Complete Solution for Mechanical Power Transmission

□ Introduction:

Team Consultants And Engineers was founded in 2007. We are 'Team', having with 10 years of experience in the field of Flexible Couplings and other mechanical related products. By this time successfully completed many consultations for Production, Quality Checking and Installations for Indian & Global Coupling manufacturing companies.

TCE started manufacturing of high quality Flexible Coupling and Rubber products in Kolkata, India since 2014.

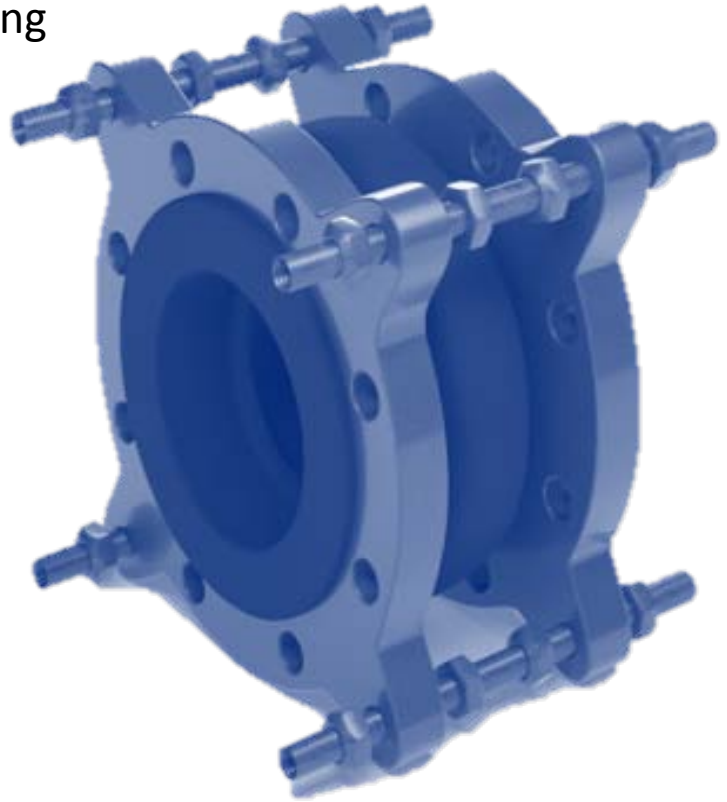

TCE has proven designs up to a nominal torque of 56,000 kgm. This has mainly become possible as the Reinforced Rubber Technology is controlled and monitored in **TCE's** own rubber manufacturing plants. The plants are fully equipped with modern machineries and strict quality control procedures.

TCE Coupling application reference list includes Marine Main Propulsion, Diesel Driven Generators, Pumps and Compressors, arduous applications in Cement, Steel and Power Plants, Oil Refineries, Locomotive Drives' etc. in India.

☐ Products

- ✓ Rubber Block Flexible Coupling
- ✓ Rubber Expansion Joints
- ✓ Pin And Bush Coupling
- ✓ TAC Coupling
- ✓ TF Coupling
- ✓ TS/TSS Coupling

☐ Refurbishing & Repairing

We undertake refurbishing of all kind of rubber to metal bonded elastic pads for Marine & DG couplings.

Our expert team will analyses the existing rubber quality & refurbish as good as original with minimum cost. Necessary warranty also will be provided for performance & quality.
